YOU HAVEN'T FOUND THE RIGHT SUCCESSION SOLUTION YET?

Together with NCA, I am currently looking for a healthy, medium-sized logistics company in Germany or Switzerland that I can acquire and develop further in the long term.

Your company ideally generates between 2 and 5 million €/CHF EBITDA and already has air and sea freight or courier services in its portfolio. In addition, I'm focusing on logistics companies that specialize in certain industry verticals, complex services or logistics software and equipment.
